

A literary writer asserts that there are one thousand minor poets in Rome. We now know what made "Rome howl."

SINCE Uncle Sam has warned European powers so emphatically about infringing the Monroe Doctrine, they are now giving us their bad bills to collect from delinquent South Americans.

PRESIDENT JOHN MITCHELL of the United Mine Workers, has been denounced as a traitor. It is some consolation to Johnny to know that George Washington was also branded as one.

COL. WATTERSON ought at least come home and politely bow to the New York smart set which he has roasted so many times; a male member of that crowd recently shot a woman merely because his wife was jealous of her.

A DETROIT official has requested that his salary be reduced—as he thinks the services required are not commensurate with it. There are millions who think they don't receive enough, but this fellow is in a class all by himself.

JAPAN now proposes to dam the entrance to Port Arthur and pump out the water preparatory to salvaging the sunken Russian war vessels. Since they were able to capture this great stronghold it would seem they ought to be able to dam it as well.

SENATOR BURROWS, the Chairman of the Smoot inquiry, has endeavored to ascertain if Smoot would support the laws of the U. S. after taking his oath. It has been suggested that he send for half a dozen of his wives and inquire of them if he is to be relied upon.

A SEAT in the U. S. Senate seems to be about the best political prize of any except the presidency. There are five cabinet members who are now in that body: Knox, of Pa.; Alger, of Mich.; Proctor, of Vermont; Elkins, of W. Va.; and Teller, of Col.; and there still others who would make the sacrifice.

THE Superior Court, in session at Scranton, recently sustained the constitutionality of the law creating juvenile courts throughout the State. The opinion was not unanimous, Chief Judge Rice and Justice Porter dissenting from the decision of the majority of the court. The law had been attacked on the principal ground that it was defective because it did not provide for judges to preside in the new tribunals.

*THERE isn't a gr-at deal being said on the subject of a suitable candidate for Governor of the Commonwealth. Congressmen Huff and Acheson have both been mentioned favorably, and it is concluded that the candidate should "come out of the west," but everybody appears to be afraid to guess who will be selected as "the spontaneous choice of the people."—[Punxsutawney Spirit.]

We're not afraid. Just keep your eye on the 28th Congressional district. We'll furnish the man in the splendid personage of our own Joseph C. Siney, provided he can be spared from the National House.

SENATOR LODGE is right in asserting that the success of the conservative policy recommended by the President in regard to the control of railroad rates is all that will save the country from a great agitation in favor of putting the railroads under Government ownership. That policy has found favor in Germany, France, Italy and in other countries. If favoritism is permitted to exist on the railroads in the United States the movement for Government ownership will probably, as Mr. Lodge says, become "a great socialistic proposition."

DURING the last few weeks the following pensioners in this Congressional district have received pensions, or increase of pensions, through their Congressman, Hon. Joseph C. Sibley: Nancy Nesbit, Franklin Henry Knapp, Venus; Charles Eberle, Mercer; Chas. H. Morse, Oil City; Daniel Fisher, Oil City; Robert Crossman, Grove City; Mary Cameron, Franklin; David F. Sheetz, Oil City; W. J. Heard, Utica; Harriet A. McComb, Roseville; Alonzo Cole, Russell; Geo. W. Pennington, Greenville; Samuel W. Smith, Wesley; Agnes A. DeWoody, Elmorton; Chas. H. Stover, Franklin.

GOVERNOR LA FOLLETTE, of Wisconsin, will go to the United States Senate as the successor of Mr. Quarles, will hardly work in harmony with Senator Spooner. They have not been on friendly terms in a political way for a long time. La Follette was a member of the House at one time, and is an experienced legislator who, evidently, has the support of the great majority of the Wisconsin Republicans. He has been very aggressive in favoring legislation to regulate the railroads, and will support President Roosevelt in that respect. He is energetic, but has not the legal ability of Senator Spooner.

THE proposition of Immigration Commissioner Sargent for the establishment at New York of a bureau of information for the benefit of immigrants should be carried into effect. Such a bureau honestly conducted by the Government would not cost much and would be the means of furnishing employment for immigrants where they are wanted, instead of having them flock to overcrowded cities. The states which want immigrants could get them by means of such a bureau. It would not be an inducement to immigrants to come to this country, but it would secure their proper distribution after their arrival.

THE Hon. W. P. Hepburn, of Iowa, as chairman of the Committee on Interstate and Foreign Commerce, is charged with the responsibility of framing a railway rate bill that will be acceptable to the President and at the same time moderate enough to pass the Senate, says Congressman Smith, of Punxsutawney. That he has a difficult task before him is certain. The President has made it plain that he will call a special session of Congress if this is not done, and Congressmen do not care for extra sessions. That a bill which would satisfy the President can easily be passed in the House, there is little doubt, as there are few men in the House who own railroads. But in the Senate it is different.

COLONEL TOM LAWSON, of Boston, has invited Colonel Pat Boyle, of the Oil City Derrick, to go to Boston and have his nose twisted. In return Col. Boyle has invited Lawson to come to Oil City and get ducked in Oil Creek. Col. Boyle will not go to Boston for any such purpose, the Philadelphia Press thinks. If he should conclude to go to Boston it will be some other nose that will get twisted.

It is reported from Harrisburg, and evidently on authority, that the bill to provide for an excise commission to take the granting of liquor licenses out of the hands of the courts will be negatively reported this week, both in the Senate and House. This is the answer to the repeated assertion that the party organization had determined to put this matter through at the present session. It will be laid aside because the organization prefers to make that disposition of it. This is wise. There has never been any real basis for the assertion that this proposed change in the license system was a party matter, but there is an ever-ready disposition to see partisanship in every bill that comes before the Legislature. Possibly there are ways in which an excise commission in each county could be made of partisan use, but so could many other things which there is not too least thought of as using. So far as the public knows the excise commission bill was presented on individual authority, and that only.

THE Post-Dispatch, of St. Louis, contains an essay on colds. It is of interest, and as follows: A simple precaution will prevent colds and the sensation of being cold. Wild animals do not take cold. Men constantly expose themselves to changes in temperature and humidity that no other animal could stand. A man's body is a furnace. Clothing does not warm him, but only keeps off the cold. The warmth comes from the burning of the oxygen of the air in the lungs. Exercise warms the man because the lungs burn up more oxygen. The oxygen in combination with the assimilated food burns freely. It is as really free as coal or wood. The process that goes on in the lungs is similar to that in a stove—the more draught the hotter the fire. Give your lungs more draught and you will feel warmer immediately. Ten long, deep breaths, on coming out of the house in the morning, will make the cut out temperature seem 20 degrees warmer. Long, deep breaths every time you go out from a warm room to the open air will send the blood tingling to the surface of the skin, and the colder the air the more exhilarating the sensation. Try it. Nature has put in every man's chest a furnace that beats steam heat.

\$100 REWARD, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Chamberlain's Cough Remedy the Mother's Favorite.
The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a favorite with people everywhere. It is especially prized by mothers of small children, for colds, croup and whooping cough, as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by Dr. J. C. Dunn.

A Rare Opportunity.
The Real Estate Agency of C. M. Arner & Son, Tionesta, Pa., has a tract of nearly 800 acres for sale. Contains a good house and barn, and about 200 acres cleared and under cultivation. The property is known as the "old Fox estate," located at Lynch, Howe township, Forest county, along the Sheffield & Tionesta railroad. Included in the sale will be the royalty from about 20 producing wells. Call on or address C. M. Arner & Son as above.

The Bell With the Wall of a Child.
A queerly shaped song which occupies a position of honor in the center of the city of Seoul, Korea, is said to be one of the largest in the world and is called "the bell with the wall of a child in its voice." When first cast the bell sounded with a harsh and cracked note, and the superstitious emperor, fearing an ill omen, consulted with his magicians. These gentlemen held a long confab and finally stated that the bell would never sound right until a live child was given to it. The mass was then melted again, and a live baby was thrown into the molten metal. The wall of agony uttered by the little tot as the bronze engulfed it seemed to be repeated every time the bell was tolled, and today the Koreans still claim that the wall of a child can be heard in the voice of the metal.

Cheese.
The digestibility of cheese is an ever vexed and disputed question. A clever scientist asserts that it requires twice as long to digest as ordinary food. It consists largely of casein, which is both nourishing and digestible, but this point is enveloped, as it were, in fat, which is not soluble by gastric juice; hence, if the gastric juice does not digest the fat, neither can it readily digest the casein. Cheese should be eaten in small quantities, with a large quantity of bread or similar food, and must be thoroughly masticated.

Insufficient Cause.
"There, mamma, I don't believe that your friend, Mrs. Newby, was to the manner born."
"Hush, dear. She's worth three millions in her own right."
"That's hardly enough to justify a woman in trying to eat soft boiled eggs with a fork."—Detroit Free Press.

Tough Flour.
Mrs. Youngbride—I've come to complain of that flour you sent me. Baker—What was the matter with it? Mrs. Youngbride—It was tough. I made some pastry with it, and it was as much as my husband could do to cut it.

The Greater Blessing.
Jawkins—Ah, my boy, it's a fine thing to have a friend whom you can trust.
Pawkins—It's a jolly sight better to have one who will trust you, old man.—Ally Sloper.

Under the Earth.
Doctor—No; I shall not pay you. You have spoiled the pavement and then covered it up with earth to hide your bad work. Payer—Doctor, mine is not the only bad work the earth hides.

Her Secrets.
He—Can you keep a secret. She—Yes, on one condition. He—What is that? She (frankly)—Provided I don't know it.

Afraid of Strong Medicines.
Many people suffer for years from rheumatic pains, and prefer to do so rather than take the strong medicines usually given for rheumatism, not knowing that quick relief from pain may be had simply by applying Chamberlain's Pain Balm and without taking any medicine internally. PROCLAMATION.
WHEREAS, The Hon. W. M. Lindsey, President Judge of the Court of Common Pleas and Quarter Sessions in and for the county of Forest, has issued his precept for holding a Court of Common Pleas, Quarter Sessions of the Peace, Orphans' Court, Over and Terminus and General Jail Delivery, at Tionesta, for the County of Forest, to commence on the Third Monday of February, being the 27th day of February, 1905. Notice is therefore given, to the Coroner, Justices of the Peace and Constables of said county, that they be then and there in their proper persons at ten o'clock A. M., of said day, with their records, inquisitions, examination, and other remembrances, to do those things which to their office appertain to be done, and to those who are bound in recognizance to prosecute against the prisoners that are or shall be in the jail of Forest County, that they may be then and there to prosecute against them as shall be just. Given under my hand and seal this 30th day of January, A. D. 1905.
GEO. W. NOBLIT, [L.S.] Sheriff.
